600201	120	500	50	10
600202	120	500	100	14

SunGlow II lights must be installed in Pentair and Sta-Rite niches.

NOTE: Sta-Rite does not recommend installing 12V lights with cord lengths greater than 50'. A significant voltage drop occurs which dramatically reduces the light output.

NOTE: Each pool or spa light should be installed with its own ground fault circuit interrupter (GFCI).

NOTE: UL has listed Sta-Rite lights for use with Pentair and Sta-Rite niches. To ensure proper grounding/bonding connections, install Sta-Rite lights only in Pentair or Sta-Rite niches.

Dimensions and Performance
